

CAREER ROADMAP

Fresh Graduate → First Tech / Data Job | Timeline: 3–6 Months | Skills: Data Analysis · Excel · SQL

Fresh Graduate Current Status	Data Analyst Target Role	3–6 Months Timeline	4 Skills To Acquire
---	------------------------------------	-------------------------------	-------------------------------

■ CURRENT POSITION		
Status	Fresh Graduate / Student	
Skills	Data Analysis, Excel, SQL	
Strength	Analytical thinking, structured data querying	
Gap	Python, visualisation, cloud tools, portfolio	

■ SKILL GAP ANALYSIS		
Python (Pandas, NumPy)	CRITICAL	
Data Visualisation (Power BI / Tableau)	HIGH	
Statistics & Probability	HIGH	
Cloud Basics (GCP / Azure)	MEDIUM	
Git & Version Control	MEDIUM	
Communication / Storytelling	MEDIUM	

■ RECOMMENDED LEARNING PLAN		
Month	Topic	Resource
Month 1	Python + Pandas	freeCodeCamp / Kaggle
Month 1	Git & GitHub basics	Pro Git (free)
Month 2	Statistics fundamentals	StatQuest YouTube
Month 2	Power BI / Tableau	Microsoft Learn / Tableau Public
Month 3	Portfolio projects	Kaggle datasets
Month 3+	Cloud (GCP BigQuery)	Google Cloud Skills Boost
■ SUGGESTED PROJECTS		
	Project	Tools
1	Sales Dashboard (retail dataset)	Excel → Power BI
2	SQL Customer Segmentation	MySQL / PostgreSQL
3	Python EDA — Titanic / AirBnB	Pandas, Seaborn
4	End-to-end Data Pipeline	Python + SQL + GCP
5	Storytelling Slide Deck	PowerPoint / Canva
■ MONTHLY MILESTONES		
Month	Goal	
Month 1	Complete Python basics · push first GitHub repo · LinkedIn profile updated	
Month 2	Build SQL segmentation project · start Power BI dashboard · 10 LinkedIn connections/week	
Month 3	Finish 3 portfolio projects · apply to 5 jobs/week · first mock interview	
Month 4	Refine resume with projects · attend 1 data meetup / webinar · target shortlists	
Month 5	Active interviews · negotiate offers · request referrals from network	
Month 6	■ Land first Data/Tech role!	
■ NETWORKING STRATEGY		
• Optimise LinkedIn — add skills, projects, 'Open to Work'		
• Connect with 10 data professionals per week (personalised note)		
• Join communities: Kaggle, DataTalks.Club, local tech meetups		
• Comment thoughtfully on posts by hiring managers & data leads		
• Ask for informational interviews — 2 per month minimum		
■ IMMEDIATE NEXT ACTIONS (THIS WEEK)		
■	Install Python + VS Code; complete first Pandas tutorial	
■	Create a GitHub account and push a Hello World project	
■	Refresh LinkedIn with photo, headline, and top 5 skills	
■	Download 1 Kaggle dataset and run SQL queries on it	
■	Identify 10 target companies hiring junior data analysts
